On April 10th, come to our traditional L'Envolée Benefit Evening, with the theme "It's a village celebration!"

It was on April 10th that our 'Soirée l'Envolée' took place! An evening full of colors, which allowed us to reconnect with our loyal allies and to establish new partnerships. We would like to express our deep gratitude to our co-chairs for the evening, Mrs. Karinne Bouchard and Mr. Marc Barbeau, whose commitment and dedication were exemplary. We also want to thank our organizing committee composed of dedicated women, our partners, and all the participants who contributed to making this evening unforgettable, in addition to raising the impressive sum of $400,000!

The objective of the evening

This evening will provide you with the opportunity to meet allies and partners from various business backgrounds. Additionally, you will have the privilege of meeting the recipients of the Mères avec pouvoir Award : this award highlights the inspiring journey of two participants of Mères avec pouvoir.

All funds raised during this evening will be used to further advance and amplify the mission of **Mères avec pouvoir**. Consequently, more single mothers will receive the support they need to change their life trajectory, benefiting both themselves and their families. This support is realized through a **subsidized housing**, **priority for a spot in a daycare (CPE)** and most of all, **support from an intervention team** in order to succeed in their socio-professional life project, whether it's returning to education or entering the job market, among other things.

Do you want to donate to our Foundation? It's not too late! Make a donation!
